

Our Mission

The Air Force Museum Foundation, Inc., chartered in 1960 as an IRS Section 501(c)(3) nonprofit organization, assists the National Museum of the United States Air Force™ (NMUSAF) in its efforts to inform and educate the public on the important role of the USAF in the nation's defense. The Foundation provides philanthropic assistance in developing and expanding the Museum's facilities, special projects and programs such as education, volunteer support, special events, artifact restoration projects, and promotional efforts.

MISSION

The Air Force Museum Foundation's single, important mission is to support the National Museum of the United States Air Force in their efforts to preserve USAF heritage, tell the Air Force story to Air Force members, the American public, and worldwide audiences, generate a sense of pride in the USAF and its veterans, and inspire our youth toward our USAF and toward science, technology, engineering and mathematics.

VISION

Passionately deliver the required resources to assist the National Museum of the United States Air Force in their efforts.
