

OUR NON-PROFIT MISSION IS SIMPLE

It's all about quality of life—and we make it our mission to respond to community needs and develop innovative services that help individuals live their best life. From the grandfather receiving a nutritious meal right to his door, to the mother struggling to maintain sobriety, to the active older friend recovering after a surgery—our continuum of services is uniquely positioned to meet the holistic needs of each individual we serve. The goal of Community First Solutions is to be THE non-profit resource for meeting the needs of our neighbors throughout Butler County. We seek to build collaborative relationships with partners who share our drive; working together to sustain programs that keep our community well.

THE NON-PROFIT DIFFERENCE

Being a non-profit means that any revenue generated is reinvested in the mission of the organization. We reinvest our funds in improving quality, expanding the scope of our services and developing innovative programs to meet community needs.
